

PROJECT WORKFLOW

Week Planner Skill

How it works, from A to Z.

PREPARED FOR	WorkSpace Labs
PREPARED BY	WorkSpace Labs
DATE	5 October 2026
VERSION	1.1
STATUS	Draft for review

THE PROJECT ON ONE PAGE

Week Planner Skill

An agent skill that plans your week or weekend. It works in every agent and app: Claude Code, the Claude app and website, Codex and Kimi. It collects your real tasks, asks a few click questions, fits the work into your free days with a buffer, and hands you a PDF, or a table where the app cannot run code. At the end of the week it compares what got done with the plan.

Who takes part

- **You** — The person planning the week. Answers, confirms, marks what got done.
- **Week planner** — The skill, run by any agent. Asks, builds the plan, draws it.
- **Backloop board** — Optional. Read only when it exists; never changed.

The main parts, from A to Z

- 1 **Collect the tasks** — The skill gathers your real work: from you everywhere, and from the board only where one exists. [page 4](#)
- 2 **Build the plan** — A few click questions, then the tasks are ranked and fitted into your free days. [page 6](#)
- 3 **Confirm and deliver** — You approve a plain read-back, then get a PDF, or a table where the app cannot run code. [page 8](#)
- 4 **Review the week** — At the end of the week, done is compared with planned and the rest carries over. [page 10](#)

What we assumed

- The week runs Sunday to Saturday.
- It plans projects, plus personal items when you add them.
- The result is a Week Board PDF, or a table in chat.
- Plan my weekend: 2 days, 2 to 3 tasks and one fun item.
- It never presses a board gate or changes a task's stage.
- No calendar events, nothing sent, no fixed folder paths.

THE MAP

The project from A to Z

Each box is one part of the project, in the order it happens. The number on the right is the page where that part is drawn in full.

PART 1 OF 4

Collect the tasks

The skill gathers your real work: from you everywhere, and from the board only where one exists.

Every step in this part

NO.	WHO	WHAT HAPPENS	WHAT COMES OUT
	YOU	Starts when: Asks to plan the week	
1	WEEK PLANNER	Looks for last week's plan unfinished items carry over	Carried-over tasks
	WEEK PLANNER	Decision: Board found?	Yes → step 3 No → step 2
2	YOU	Types or pastes tasks or uploads a list	Then: step 5
3	BACKLOOP BOARD	Shares the open cards read only	Real tasks and decisions
4	YOU	Adds any other tasks or skips	
5	WEEK PLANNER	Makes one task list	This week's tasks
	WEEK PLANNER	Ends: Tasks collected	Continues in Part 2 (page 6)

PART 2 OF 4

Build the plan

A few click questions, then the tasks are ranked and fitted into your free days.

 Step
 Decision
 Start
 End
 Stops early
 — Normal path
 - - - Other path

Every step in this part

NO.	WHO	WHAT HAPPENS	WHAT COMES OUT
	WEEK PLANNER	Starts when: Task list ready	
1	WEEK PLANNER	Asks click questions hours, free days, top goal	
2	YOU	Answers by clicking	Hours, days and goal
3	WEEK PLANNER	Ranks the tasks your decisions first	A ranked list
4	WEEK PLANNER	Fits tasks into days never overfills a day	
	WEEK PLANNER	Decision: Fits the hours?	Yes → step 6 No → step 5
5	YOU	Picks what waits moves to next week	Then: step 4
6	WEEK PLANNER	Keeps a buffer slot things take longer	A draft week plan
	WEEK PLANNER	Ends: Draft ready	Continues in Part 3 (page 8)

PART 3 OF 4

Confirm and deliver

You approve a plain read-back, then get a PDF, or a table where the app cannot run code.

Every step in this part

NO.	WHO	WHAT HAPPENS	WHAT COMES OUT
	WEEK PLANNER	Starts when: Draft ready	
1	WEEK PLANNER	Reads the plan back day by day, plain words	
	YOU	Decision: Looks right?	Yes → the question “Can run code?” No → step 2
2	YOU	Says what to change	Then: step 1
	WEEK PLANNER	Decision: Can run code?	Yes → step 4 No → step 3
3	WEEK PLANNER	Shows a table in chat	The week plan Then: ends (Has the week plan)
4	WEEK PLANNER	Draws the PDF week, goals, waiting on you	The week plan PDF
5	WEEK PLANNER	Saves it with the date where this app saves files	
	YOU	Ends: Has the week plan	

PART 4 OF 4

Review the week

At the end of the week, done is compared with planned and the rest carries over.

□ Step ◇ Decision ○ Start ● End ● Stops early — Normal path - - - Other path

Every step in this part

NO.	WHO	WHAT HAPPENS	WHAT COMES OUT
	YOU	Starts when: Asks to review the week	
1	WEEK PLANNER	Opens the saved plan or asks you to paste it	
2	YOU	Marks what got done click each task	
3	WEEK PLANNER	Shows the score for example 6 of 8 done	The week score
	WEEK PLANNER	Decision: All done?	Yes → ends (Week closed) No → step 4
4	WEEK PLANNER	Carries the rest over	Start of next week's list
	YOU	Ends: Week closed
